Tenure-Track Assistant Professor or Associate Professor Positions

The Department of Architecture at Texas A&M University invites applications for tenure-track Assistant Professor or Associate Professor in any of the following areas for Fall 2017.

**Architectural Design:** Successful candidates must demonstrate professional experience in architectural design and a record of recognized research including built work, theoretical explorations, creative work and/or scholarship in the form of grants, publications and exhibitions. Candidates should have the ability to integrate their research interests, creative work or professional practice in teaching. A terminal professional graduate degree is required.

**Architectural History and Theory:** Successful candidates must demonstrate a strong record of research and teaching in Architectural History and Theory from the Medieval to Early Modern periods in a global context. Teaching responsibilities will include introductory surveys, advanced undergraduate and graduate courses. A Ph.D. is required. An ABD for junior positions may be considered if the candidate will be awarded the Ph.D. by September 2017.

**Architectural Historic Preservation:** Successful candidates must demonstrate professional design experience and an established body of recognized peer-reviewed scholarship and research in Historic Preservation. Responsibilities will include teaching design studio and courses in Historic Preservation, and participation in the research and outreach activities of the Center for Heritage Conservation. A terminal professional graduate degree is required.

**Architectural Structures:** Successful candidates must demonstrate disciplinary knowledge in both structural engineering and architectural design and have the capacity to bridge between technology and the design culture along with a record of recognized research which includes built work, theoretical explorations, scholarship, grants, and/or creative work. Teaching responsibilities will include courses in architectural structures and the integrated design studio. A Ph.D. is required. An ABD for junior positions may be considered if the candidate will be awarded the Ph.D. by September 2017.

Teaching opportunities are available for undergraduate and graduate levels. All positions have responsibilities that include mentoring master’s final studies, master’s thesis and doctoral dissertations. The Department is committed to design inquiry as central to its mission to support the architectural professions. The successful candidate will demonstrate abilities to contribute to the Department of Architecture through teaching, research, and service. Salary is commensurate with experience and qualifications for all candidates.

Texas A&M is a Tier 1 research university with strong emphasis in both teaching and research. The Department of Architecture offers both undergraduate (B.E.D.) and graduate degrees (M.Arch, M.S. and Ph.D.) Further information about the Department is available at: http://www.arch.tamu.edu.

Interested individuals should send a letter of application, curriculum vitae, portfolio of their professional and creative work and three letters of recommendation to: Department of Architecture, M.S. 3137, Texas A&M University, College Station, Texas 77843-3137. Candidates are expected to provide examples of their teaching portfolio if applicable.

Application deadline: Review of Applicants will begin January 2017. The Department of Architecture is committed to diversity in its students, faculty and its curriculum. All applicants are welcome to apply and are due every consideration in our efforts to bring the very best educational experience to our students.

*Texas A&M University is an affirmative action/equal opportunity Employer committed to diversity.*
